

# Workshop: Observational campaigns for better weather forecasts

## Tuesday, 11 June 2019

### Tropical cyclones - Chair: Linus Magnusson (16:00 - 18:00)

time	[id] title	presenter
16:00	[38] Examples of targeted high-altitude airborne dropsonde deployment strategies for improved tropical cyclone and winter storm prediction	BLACK, Peter
16:30	[40] Upper Ocean Data Collection during Operational Hurricane Reconnaissance Missions	SANABIA, Elizabeth
17:00	[37] New observational strategies for operational global and hurricane model improvements using airborne Tropical Cyclone and Winter Storm surveillance flights	TALLAPRAGADA, Vijay
17:30	[17] Analysis and forecast using dropsonde data from inner-core region of tropical cyclones obtained during the aircraft missions of T-PARCII	ITO, Kosuke
