

Workshop: Stratospheric predictability and impact on the troposphere

Wednesday, 20 November 2019

Session 5 : Model development, impact of model biases (09:00 - 12:00)

-Conveners: Michail Diamantakis

time	[id] title	presenter
09:00	[20] Recent work at DWD to improve model dynamics and physics in the stratosphere and mesosphere	Dr ZÄNGL, Günther
09:30	[75] A new approach to linear ozone modelling	STOCKDALE, Tim
10:00	[43] Dependence of simulated atmospheric teleconnections on biases in stratospheric circulation	Dr KARPECHKO, Alexey
10:30	Coffee break	
11:00	[40] Dynamics of Sudden Stratospheric Warmings	DE LA CÁMARA , Presenting on behalf of Thomas Birner (University of Munich): Álvaro
11:30	[78] Stratospheric data assimilation at ECMWF	HOLM, Elias
