Virtual Workshop: Warm Conveyor Belts – a challenge to forecasting

Tuesday, 10 March 2020

Session 2 **(10:25 - 11:55)**

　-**Conveners: David Richardson**

time	[id] title	presenter
10:25	[37] Airborne active remote-sensing observations of warm conveyor belts	SCHÄFLER, Andreas
10:55	[2] Embedded convection in the warm conveyor belt of a North Atlantic cyclone and its relevance for large-scale dynamics	OERTEL, Annika
11:25	[18] The importance of warm conveyor belts for (upscale) error growth	Dr RIEMER, Michael
