

Virtual Workshop: Warm Conveyor Belts – a challenge to forecasting

Wednesday, 11 March 2020

Session 6 (10:45 - 12:05)

-Conveners: Tim Hewson

time	[id] title	presenter
10:45	[19] How do diabatic processes in warm conveyor belts influence circulation and Rossby waves at tropopause level?	METHVEN, John
11:10	[10] Revisiting the isentropic view of PV modification in warm conveyor belts	HARVEY, Ben
11:35	[52] Three-dimensional radiative transfer around a tropopause fold	CRAIG, George
