

Virtual Workshop: Warm Conveyor Belts – a challenge to forecasting

Wednesday, 11 March 2020

Session 7 (13:05 - 14:20)

-Conveners: Irina Sandu

time	[id] title	presenter
13:05	[11] Rapid ascents embedded in a warm conveyor belt observed and modeled at kilometer-scale resolution	PANTILLON, Florian
13:30	[20] Impact of different microphysics on the warm conveyor belt of a deep extratropical cyclone observed during the NAWDEX campaign and on its associated ridge building.	Dr MAZOYER, Marie
13:55	[17] Diabatic processes in the Warm Conveyor Belt of the Stalactite Cyclone: sensitivity to two convective parametrization schemes of the global Météo-France model ARPEGE	RIVIERE, Gwendal
