

# Virtual Workshop: Warm Conveyor Belts – a challenge to forecasting

## Thursday, 12 March 2020

### Session 10 (08:30 - 10:15)

-Conveners: Frederic Vitart

time	[id] title	presenter
08:30	[3] Development of a logistic model to study warm conveyor belts on subseasonal time-scales	QUINTING, Julian
08:55	[26] Verification of warm conveyor belts in ECMWF IFS reforecasts	WANDEL, Jan
09:20	[14] Exceptional air mass transport and dynamical drivers of an extreme wintertime Arctic warm event	BINDER, Hanin
09:45	[9] Warm Conveyor Belts and Their Role for Cloud Radiative Forcing in the Extratropical Storm Tracks	Dr JOOS, Hanna
