

# Joint ECMWF/OceanPredict workshop on Advances in Ocean Data Assimilation

## Tuesday, 18 May 2021

### Theme 5: Model error (09:40 - 13:30)

-Conveners: Hao Zuo; Jennifer Waters

time	[id] title	presenter
09:40	[67] Invited talk: Machine Learning for Earth System Assimilation and Prediction	BONAVITA, Massimo
10:10	[35] Relating model bias and prediction skill in the equatorial Atlantic	COUNILLON, François
10:30	[74] Discussion	
10:40	Coffee break	
11:00	[7] A New Stochastic Ocean Physics Package and its Application To Hybrid-Covariance Data Assimilation	Dr STORTO, Andrea
11:20	[40] Recent development of a supermodel - an interactive multi-model ensemble	WANG, Shuo
11:40	[14] Modeling near-surface SST and SSS variability: modeling and observations	AKELLA, Santha
12:00	[31] Accurate parameter estimation for a Global Tide and Surge Model with Model Order Reduction	WANG, Xiaohui
12:20	[75] Discussion	
12:30	Lunch break
