

# Joint ECMWF/OceanPredict workshop on Advances in Ocean Data Assimilation

## Wednesday, 19 May 2021

### Theme 8: Development and assessment of data assimilation in forecasting applications (10:00 - 13:30)

-Conveners: Eric de Boisseson; Matthew Martin

time	[id] title	presenter
10:00	[21] Invited talk: Ensemble forecasting greatly expands the prediction horizon for internal "weather" of the ocean	FROLOV, Sergey
10:30	[81] Discussion	
10:40	Coffee break	
11:00	[9] Invited talk: Requirements on Ocean Data Assimilation Methods to meet Seamless Predictions needs	Dr BALMASEDA, Magdalena
11:30	[53] Evaluation of eddy-properties in operational oceanographic analysis systems	Dr SMITH, Gregory
11:50	[55] Regional Analysis of Indian Ocean (RAIN)	BADURU, Balaji
12:10	[11] Forecast Sensitivity to Observations and the U.S. Integrated Ocean Observing System	Prof. MOORE, Andrew
12:30	Lunch break
