

Live Demo session: Interactive apps for exploring extreme event data

Rebecca Emerton, Matt Menary, Guy Griffiths, Sebastian Milinski

James Varndell, Anna Lombardi, Chiara Cagnazzo, Sam Burgess,
Freja Vamborg, Thessa Beck, Chris Barnard, Julien Nicolas, Thomas Rakow
+ collaborators

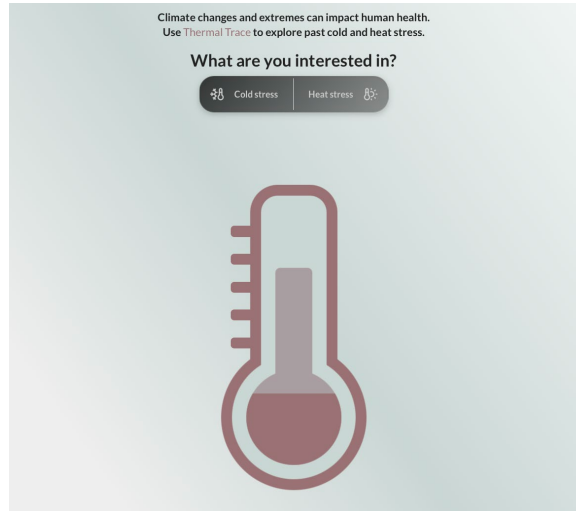

Today's live demo features four of our latest and upcoming apps:

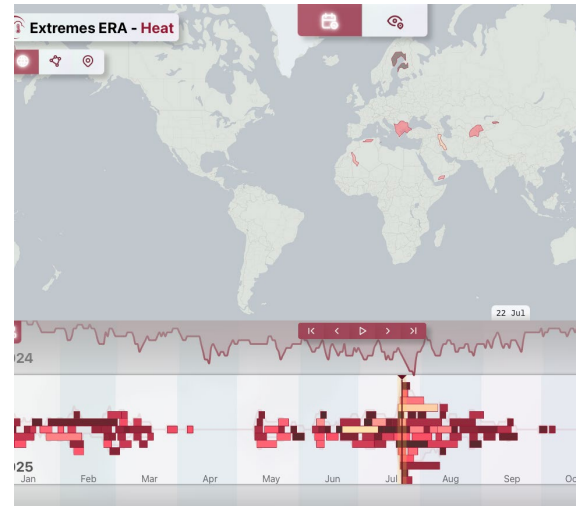

Weather Replay

NEW! Launched May 2026

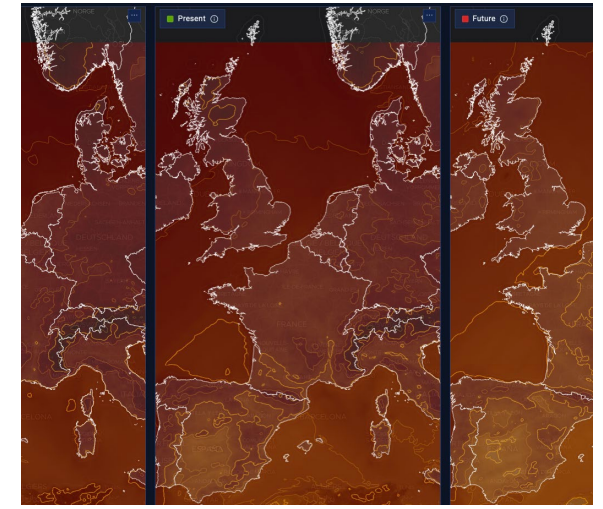

Thermal Trace

Launched August 2025

Extremes ERA

Coming soon!

PrismEra

NEW! Just launched

How will the session work?

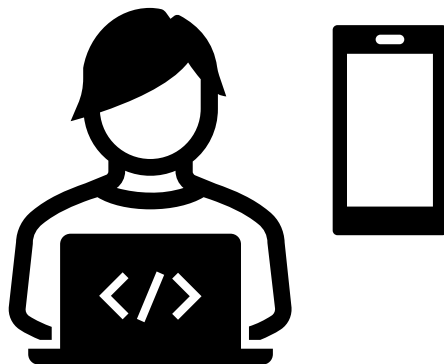

- **Have a device with you?**

First: join the wifi – details on your badge!

For *Weather Replay*, *Thermal Trace* and *Prismera*, head to the apps online and follow the demo for a real-time walkthrough!

We'll share the links 

- Get a glimpse of our upcoming app *Extremes ERA* through the live demo
- ~10-minute demo per app, + Q&A

- **Questions?**

- Trouble following the demo and need a quick hand?
Raise your hand! We'll come and help.
- More general questions about our apps, and what you can use the different apps for?
Add them to the Slido at any time during the session, and we'll answer at the end!

Ask questions for the Q&A at any time via Slido
