Contribution ID: **57**   Type: **30 minute oral presentation**

NCAR's computing directions

Monday, 24 September 2018 12:30 (30 minutes)

This presentation will provide an overview of existing NCAR systems and the strategy for its next generation of computing and storage. Topics will include application preparations, early technology deployment, procurement and benchmarking strategies. The role of GPUs and cloud solutions in this overall strategy will also be discussed.
